INDEPENDENT DEMONSTRATION

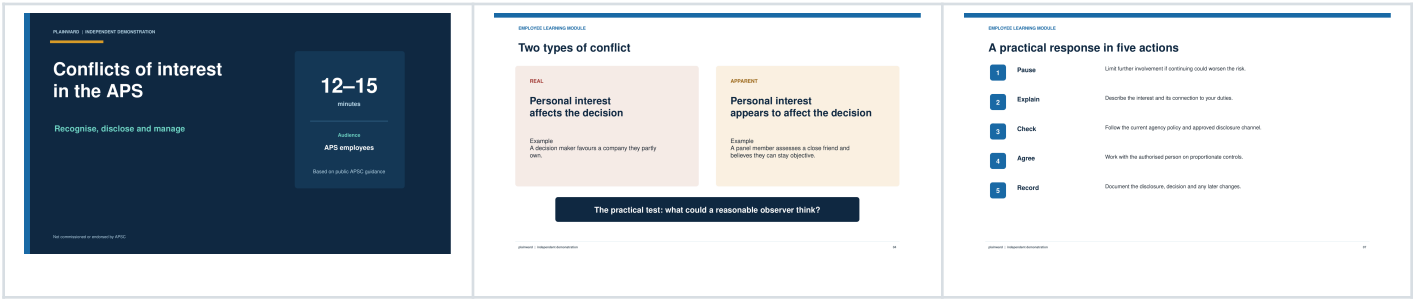

APS Conflicts of Interest Training Module

Turning public guidance into a concise employee learning package.

SOURCE	CHALLENGE	OUTPUT
Public Australian Public Service Commission guidance on conflicts of interest in the APS.	Convert policy style guidance into short, practical learning that employees can apply.	A complete learning package with presentation, guide, assessment and answer key.

Plainward approach

The source material was restructured around learner decisions rather than policy headings. The module introduces the core principle, explains real and apparent conflicts, provides a simple materiality test, shows common workplace situations and finishes with scenario based assessment.

Deliverables

10 slides	6 pages	10 questions	Answer key
Employee learning	Learner guide	Knowledge check	Facilitator rationale

Independent demonstration

This project was prepared independently by Plainward using publicly available Australian Public Service Commission guidance. It was not commissioned, approved or endorsed by the Australian Public Service Commission. An agency adopting material of this kind would need to replace generic reporting instructions with its own policies, contacts and approval pathways.
